PROFESSIONAL SUMMARY

Full-stack Web Developer with one year of professional company experience building web applications across frontend interfaces, backend logic, APIs, and databases. Resourceful, efficiency-focused, and quality-conscious, with a practical approach to learning tools quickly and delivering maintainable solutions.

PROFESSIONAL EXPERIENCE

Full-stack Web Developer

1 YEAR OF COMPANY EXPERIENCE

Confidential private company project

- Built an AI-assisted recruitment web application that helps HR review applicants and compare candidates with campaign criteria.
- Delivered frontend interfaces, backend logic, APIs, database integration, and security-related implementation.
- Enabled candidates to be reassessed across campaigns to identify potentially stronger matches when the original campaign was not suitable.
- Worked with HTML, CSS, JavaScript, C#, Express, MySQL, GitHub, and Google Sheets.
- Protected confidential company information; portfolio screenshots use mock names and mock data.

TECHNICAL SKILLS

FRONTEND	HTML, CSS, JavaScript, React, Vite, Next.js
BACKEND	Node.js, Express, C#, REST APIs
DATABASES	SQL, MySQL, PostgreSQL, SQLite
TOOLS	Git, GitHub, Google Sheets

EDUCATION

St. Ignatius Academy

2020 - 2021

Information and Communications Technology (ICT) - Web Development

Studied frontend and backend development using HTML, CSS, JavaScript, Node.js, Express, and C#.
